

## Placemat Mattola Bauhaus Faux Leather & Copper Stone Shape - Green

The Bauhaus school inspired our collection of great colors and different shapes, which are avant-garde and elegant. Made with copper nanoparticles and recyclable, it is one of our top-line products in Europe. Easy to clean and always trendy, it is the best choice for the table. With advanced technology, we manufacture a beautiful, unique product using clean energy and low levels of water consumption. We also recycle all our production waste and use high-quality, phthalate-free raw materials specially formulated for food contact. During the extrusion process, we add copper nanoparticles that prevent the spread of viral and bacterial diseases, protecting your table and food with style and color.
